

# **Electrified Hardware Back-Box Assembly for Wired Door Hardware**

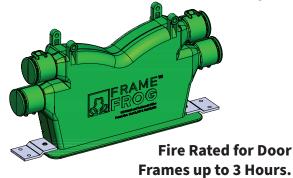

Specifically designed for an easy, professional solution to all electronic access control systems. Replaces the door frame metal mortar box where wired hardware is installed, providing a smooth, seamless pathway while future-proofing door hardware wiring access.

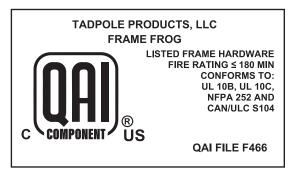

## **Features**

- 1. Suitable for elecronic locks, strikes, card readers, position switches, or any other devices for wired access control systems.
- 2. Compatible with hollow metal masonry and drywall type door frames.
- 3. Four connection points for universal wiring configurations.
- 4. Limited for Class 2 Single Source power supplies only with system wiring voltage of 30 volts or less.
- 5. Fits Standard Profile Hollow Metal Frames from 5 3/4" to 9 1/4" in depth.
- 6. Removable port caps left in place protect the back box from mortar intrusion.
- 7. Optional adjustable Wing Tabs for shop or field installation. (Sold separately).

# **Benefits**

- 1. Patented design seamlessly directs a fish tape directly into the connected conduit.
- 2. Divider walls guide a fish tape to your chosen conduit path with the flick of a finger.
- 3. Wiring pathways are easily accessible through entry point even after construction is complete.
- 4. Easily fish additional wiring for last minute changes or repairs.
- 5. Future-proof doors for any potential needed security or data needs.

# **Key Specifications**

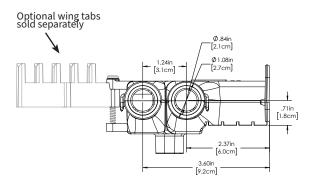

| Material              | ABS Plastic                            |  |  |
|-----------------------|--|--|--|
| Number of Ports       | 4                                      |  |  |
| Max. Frame Opening    | 5" Long Prep                           |  |  |
| PVC Conduit           | 1/2"                                   |  |  |
| Port Diameter         | .871" Inside Diameter                  |  |  |
| Conduit Size and Type | 1/2" PVC (Not Provided)                |  |  |
| Frame Depths          | 5 3/4" to 9 1/4" Depth                 |  |  |
| Frame Types           | Masonry, Drywall, Hollow Metal         |  |  |
| Adhesive              | Multipurpose for PVC to ABS<br>Plastic |  |  |

ABS MATERIALS NOTE:

Typical values are only for material selection purpose, and variation within normal tolerances are for various colors.
Values given should not be interpreted as specification and not be used for part or tool design.
All properties, except melt flow rate, are measured on injection molded specimens and after 48 Hours storage at 23°C and 50% relative humidity.

### **Screws**

|                 | Size      | Length   | TPI    | Materials |
|-----------------|-----------|----------|--------|-----------|
| Assembly Screws | 0.148 in. | 0.39 in. | 18 TPI | Steel     |
| Hinge Screws    | 0.148 in. | 1.5 in.  | 18 TPI | Steel     |

## Weld Clips

|            | Thickness | Length    | Width     | Materials |
|------------|-----------|-----------|-----------|-----------|
| Weld Clips | 13 Gauge  | 1.485 in. | 1.015 in. | Steel     |
