

# The All-Inclusive Security Pathway Solution

FrameFrog® Prep Kits  
transform wiring for access  
control hardware

## 75% Labor Reduction

Pull wires through a door frame in minutes not hours

## Project Completion

Every pathway is prepared making door security installation smooth, predictable and efficient

## Access Anytime

Effortless entry to the pathway now and in the future, adapting to changes with ease

**“FrameFrog solves the 3 Feet of No-Man’s Land in wiring all access control in door frames.”**

## Why FrameFrog®?

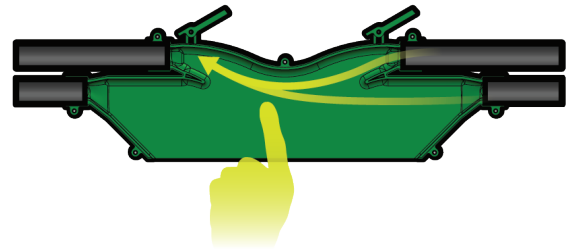

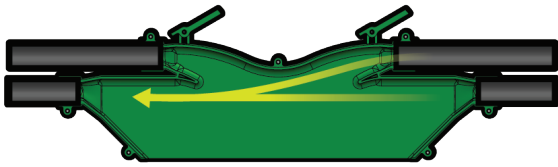

Our total door solution provides a pathway for the lifetime of the frame. It eliminates the inaccessible frames covered by finishes, accommodates last minute hardware changes, and allows for future security upgrades.

The patented FrameFrog Prep Kits allow installers to effortlessly pull wire to all your security devices in minutes with no snags or headaches.

Taking control of your pathway saves you time and money.

# Patented Pathway Configuration

Four connection ports with removable caps provide flexibility for configuring conduit pathways in a variety of arrangements, and the patented funnel shaped ports smoothly steer a fish tape into your desired path even after finishes are complete and concealing your view.
