FRAMEFROG™ PREP KITS

EASY SHOP FABRICATION

Specifically designed to make a single purchase for assembling a fully functioning wire pathway that is completely housed in the throat of the frame, making shipping and handling a breeze.

OR LAST MINUTE FIELD CHANGES

Ship our Prep Kits directly to the field for last minute changes. With the Wing Tab attachment, field installation is “just in time” and equally as easy.

PROVIDES LIFETIME FLEXIBILITY

Owners can now prepare their buildings for changing needs and future advancements in access control and touchless entries for the life of their facilities.

Each kit comes with a 1/2" and 3/4" EMT connector for installing conduit from the frame to above ceiling
